As the chilly mornings of fall come Fredericktown people are wondering what they are going to do for gas this winter. If we have as severe cold weather as last winter and there is as great a call for gas by our industries the pipe lines will again be inadequate to supply the demand. Some time ago the business men of this place discussed the matter of petitioning the company to put in another main from the gas field but the representative of the Ohio Fuel and Gas company agreed to inform the company of the needs here and that perhaps they would take the initiative without the petition. Mr. Lovell thereupon started the request along the proper lines and there is some prospect that before bad weather sets in provisions against winter's demands will be taken care of. In the meantime the coal men and those selling coal heaters are busy booking orders as the people do not want to take chances of another freeze out this winter. It is to be hoped that a new line will be laid before long.

The good work of improving Main street continues as fast as the weather will permit. Sunday evening there was a Union Service held at the Presbyterian church under the auspices of the W. C. T. U. at which Mrs. R. J. Trego, a national evangelist of the Woman's Christian Temperance Union, spoke to an interested and attentive congregation on the theme of gospel temperance, founded on the 12th chapter of Revelation, using the dragon as a representation of the liquor traffic; clearly and forcibly she brought the truth home to every citizen that it would be just as wise to repeal the law against liquor selling as the law against liquor selling for the reason that these laws are sometimes broken. She is a very clear and forceful speaker and her word painting makes everything very vivid. Then on Monday evening she gave a lecture illustrated with views from a slide stereopticon; she began with a scientific demonstration of the effects of alcohol on the system from the moderate drinker to the sot, showing its effects people mentally, morally, physically, socially and financially. Her views were taken from post mortem examinations made in the hospital at Cleveland. Then in contrasting a life of purity and consecration with a life of impurity. Her lecture was most eloquent, and the pictures so beautiful that one felt as if transported above this sordid earth into realms of beauty and joy in short she led us step by step from "darkened America" to the coronation—but the pity of it was that so few of Fredericktown people embraced the opportunity of hearing it. The indifference of our people will have an awakening some day that will shake our village to its foundations for right is right and God is truth.

Commendable Courage.

They are putting all sorts of propositions up to Governor Harmon and he is meeting them with a courage that is commendable and which will win for him the admiration and support of every fair-minded, law-abiding citizen of the great state.—Alliance Leader.

"Uncle Joe" seems to have knocked all the wind out of Roosevelt's son-in-law when he called Nick a windmill.

Something Besides Speaking.

Harding can make a fair stump speech, but what would he do as governor in emergencies like Harmon has had? He would be lost in the shuffle.—Lisbon Patriot.

One of the amusing spectacles of the political situation in Ohio is the effort being put forth to convince the "insurgents" that the way to be "progressive" is to stand by Harding and Taft on the Taft-Ellis-Dick stand-pat platform.

Harding admires Uncle Joe Cannon

(Editorial in the Marion Star, Mr. Harding's paper, March 19, 1909.)

Speaker Cannon refutes the idea that he is now, or ever has been a Czar. He holds that the majority rules now and always has ruled. Right you are, "Uncle Joe," and it is one of the most highly centralized and perfectly unified majorities that ever came down the legislative thoroughfare.

RETIREES

From Active Business, Will Return To Mt. Vernon

(Dunkirk, New York, Herald)

The last few days have witnessed an important change in the business affairs of the Harper Drug company. The name of the well known concern has been changed to the Harper-Gervais Drug Company. William J. Gervais is now half owner and assumes the active management of the business, with John Harper, also half owner retiring from active management. Mr. Harper will act in an advisory capacity in the handling of the company's affairs and will divide his time between Dunkirk and Mt. Vernon, O.

The drug store is one of Dunkirk's oldest business establishments. In 1882 it came into existence under the name of Light & Harper. In 1884 Mr. Harper took over full ownership and from that time until 1906 the business was carried on under the name of John Harper. In 1906 the name was changed to the Harper Drug Co. and thus it remained until the change to its present name, Harper-Gervais Drug Company. The new change went into effect last Saturday.

Don't Break Down

Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax the stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run-down, or under strain of any kind, take Electric Bitters, the matchless tonic medicine. Mrs. J. E. Van de Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction positively guaranteed, 50c at G. R. Baker's, F. Fink, Fredericktown.

Ten Margarets Register In One Day In Chicago

Chicago, Sept. 28—"This must be visiting day for all the Margarets. Never in all my time have I seen any thing like it," said Clerk Ernest Reul, of the Congress Hotel, as he assigned the tenth woman of the name of Margaret to a room, "and they are from many sections of the country."

These arrivals were Margaret Stickley, Grand Rapids, Mich.; Margaret Mooser, Cincinnati, O.; Margaret Shields, Louisville, Ky.; Margaret Whithead, Shreveport, La.; Margaret Baldwin, Grand Rapids, Mich.; Margaret Cayo, Mobile, Ala.; Margaret Casey, Memphis, Tenn.; Margaret Sale, St. Louis, Mo.; Margaret Musgrave, Little Rock, Ark.

A Man of Iron Nerve

Indomitable will and tremendous energy are never found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills, the matchless regulators, for keen brain and strong body. 25c at G. R. Baker, and F. Fink of Fredericktown.

HOME seeker, don't overlook the best proposition for a fine, close-in residence in Mt. Vernon today. A bottom price will be made for a few days to close the deal. Get busy, you won't have this bargain chance long. I have several other houses and lots at cheap prices. See Col. L. G. Hunt, 36 Public Square, Citizens' phone 58 Red.

ARE YOU WILFULLY BLIND?

Every laborer in Ohio knows that the price of woolen clothing has gone sky high. Every farmer knows the price of his wool is down in the sub-cellar. Both agree that the tariff, dictated by the monopolists, and accepted in the Taft-Aldrich-Payne bill, is framed for the eastern manufacturer, and both ought to get busy to repudiate a party responsible for the law.

Warren G. Harding said in a speech at Cleveland April 20, 1910, as reported in the Cleveland Leader, that this tariff is the best that any congress had yet produced. He said that before he was nominated for governor. His platform says of it, "No tariff bill was ever more unjustly enacted."

The Cleveland Leader, a Republican paper, said editorially after the platform was adopted, "None but the wilfully blind can fail to see the widespread disappointment among Ohio Republicans over the outcome of the platform fight at Columbus."

Unless you are wilfully blind election day you will mark your ballot for "Harmon and a clean sweep."

One year of performance is better than ten years of promise. The Mt. Vernon Business College has made good.

We weren't experimenting on Mt. Vernon the past three years with our local Branch School. We knew just what we were doing. Business men had pledged enough students for a fine class before even the first announcement, and each year was a grand success—this one will be even better.

Your money couldn't secure you a better education—no matter where you want. There is only one BEST—and in College Systems, and methods we control them absolutely. We pay large salaries to instructors who know their business and graduates of this school never be out of a position—we guarantee that.

Stay at home with your family and go to business college in your home town—what can you ask better than that—especially when you have everything that the big city college can offer—nothing different but the size of the school, and that can certainly be no disadvantage.
